**They indicated that they had no knowledge of ever receiving pesticides.
It is my understanding that Bayer Scientific may have been one of their customers.
Thanks**

If we don't have process knowledge we almost need to run everything. Did you ever get an answer from the previous chemist as to whether or not they received pesticides. We had talked about trying to remove those waste codes based on generator knowledge..?

Beth:

This tank is located in the group of three that are elevated by the truck cleaning bay just north of the north ASTs. How should we sample these to get the information we need to dispose.

Thanks

Gentlemen,

Do we have any idea on the concentration of the sulfuric acid that Lonestar couldn't take?

Thanks,
